

"Fannin" Airlines

FANNIN MUSICAL PRODUCTIONS
RQSS

Get ready to fly high with this fan-favorite show!

Simply add your school name to create your own airline and "take off" into a fantastic season.

(ex: Fannin Airlines, Broken Arrow Airlines) You could also use "Flight 2022" (or another significant number)

This show will take the viewer on the journey of flight while using music like *Fly Like An Eagle*, *Rhapsody in Blue*, *Learn to Fly*, *Mr. Blue Sky*, *One Day I'll Fly Away*, *Thunderstruck*, and *Fly Away* to drive our airline theme home.

In-flight announcements (voiceovers), beautiful sky and airplane imagery, flight attendants, air traffic controllers, wings, turbulence/lightning bolts, and a beautiful color palette will take your audience on a journey of a flight, from boarding through turbulence to a safe and peaceful landing.

You can use all of these ideas or pick and choose what will work best with your team and resources. The sky is the limit on what is possible with this show!

PRODUCTION

GENERAL IDEAS

PRE-SHOW (optional)-- The band is "taking their seats" and boarding the airplane, color guard act as flight attendants-lots of fun role playing. Drum Majors are dressed as the pilots. Alternates or extra performers could be dressed in bright vests as air traffic control guiding the group into aisles to be seated. Sounds of seatbelts clicking, whispers of passengers taking their seats, cargo doors shutting, etc...

IF you do not want to do an entire choreographed pre-show--- you can simply use the in-flight announcements to set the mood.

Movement 1: TAKE OFF! --"Thank you for choosing Fannin Airlines and enjoy your flight!" Set the scene and establish the mood. Great marching band drill and playing. Beautiful flags with a boarding pass on them-- if digitally printed we could personalize with the school location, date of the biggest show of the year, etc...

Movement 2: SMOOTH SAILING --With beautiful blue skies & flags. Use of parachute to show the beauty of air and the sky. Light & airy mini parachute pieces of fabric and/or sky swing flags. Peaceful & beautiful integration of *Rhapsody in Blue* throughout.

Movement 3: TURBULENCE -- Lightning bolts and storms. This tune builds to an exciting rock concert moment! *Thunderstruck*--electric guitar or piano solo moment... pure energy and entertainment. Lightning rod poles & turbulence flags for the CG.

Movement 4: PERFECT LANDING --The peaceful feeling of arriving safely home after a long trip. This is the perfect show for a "flyover" moment at the end! Picture a beautiful airplane printed onto a gorgeous sunset sky with "Thank you for flying Fannin Airlines" printed on top of the image. Pair that with the ending of *Rhapsody in Blue* and you have a standing ovation ready to go!

Color Guard Costume

COLOR GUARD

REVERENCE PERFORMANCE APPAREL

**Super fun
FLIGHT ATTENDANT
costumes.**

Lots of character and a hint of a retro feel to it. There will be no mistaking what the role of the color guard is in this costume.

Could add a hat to add even more character if desired.

Colors can be adjusted to work well with the band uniform.

Two options of cut are available.

****ALL details can be modified to fit your budget & specific needs.****
